

FIESTA, SIESTA, OLE!

Fiesta, siesta, fun, ole! The extravaganza of colours glimmering in the ever-shining sun and flamenco music flowing briskly through small avenues is what bonded the newest Solano collection with the atmospheric city of Seville. Combinations previously considered impossible are suddenly at your fingertips. Everyone can find something for themselves!

In this collection we will see sunglasses boasting irregular shapes decidedly emphasising the unique form of any given outfit and glasses with a touch of glitter on the brow line. Enormous, rectangle- and circle-shaped sunglasses straight out of the '70s as well as the classic cat-eye design provide a refreshing take on the retro look.
